

TF Route Setting Workshop Feedback

Timy,

I just wanted to thank you again for putting together the route Setting clinic and making it such a special event. It was an honor to have you teach at the ODR climbing gym and I hope we can do more events in the gym while I am here at Kirtland AFB.

I also wanted to thank you again for all the help and advice you have given me personally as I try and progress on my own career path in the climbing world. Your wisdom and shared knowledge has been much appreciated and I look forward to learning more from you. Take care and see you soon!
